News from the Editors

Steam Cleaners

The bright yellow Enviro Steamer from Eureka, \$149, can be used on all the hard surfaces in the kitchen and bathroom, and will even go outside to steam grime off lawn furniture. It weighs only 8.5 pounds and comes with a 25 ft. cord and a variety of attachments for hard to reach spots.

The Steam Vapor Vac, \$1,095, from Vapor Systems features a filtering system that traps particles as small as bacteria, mold spores and dust mites. Weighing in at 28 pounds but packing 1400 watts of power, the Vapor Vac heats up in just 3 minutes to 274 degrees F. But you don't have to let the system cool to refill the water tanks. vapor-systems.com

The Shark from Euro-Pro, \$159.80, is a hand-held steam cleaner that works well on upholstery as well as hard surfaces. One of the attachments is a window squeegee, excellent for cleaning sliding glass doors. It's small but powerful at 1600 watts. sharkvac.com

The SteamMax Cleaner's extension rods make it easy to get to ceiling fixtures, ceiling vents, and even tops of cupboards. \$135. topinnovations.com
